---

#### NETFLIX CLONE

Built a responsive Netflix website clone using HTML, CSS, JavaScript, and React, integrating the TMDB API for dynamic movie data retrieval, including titles, posters, and trailers.

**Github Repository:**<https://github.com/prasad-L4/Netflix>

**Live Link:** <https://netflix-stnpagwuy-prasad-l4.vercel.app/>

---

#### E-COMMERCE WEBSITE

Developed a feature-rich e-commerce website using React, CSS, JavaScript, and HTML. The website offers a wide range of products across multiple categories and includes a seamless shopping experience with a shopping cart functionality.

**Github Repository:** <https://github.com/prasad-L4/E-commerceweb-app>

**Live Link:**<https://e-commerce-web-app-blond.vercel.app/>

---

#### TRAVEL WEBSITE

It is an immersive tour and travel website designed using React.js that aims to inspire wanderlust and provide users with a seamless platform to discover and plan their dream vacations

**Github Repository:** <https://github.com/prasad-L4/Travelwebsite>

**Live Link:** <https://travelwebsite-zwch-oodarz1ac-prasad-l4.vercel.app/>

---

#### A WEB DESIGN AGENCY WEBSITE

Crafted a standout website for a web design agency using WordPress and Elementor, making it easy to use and showcasing our designs and services. Created an inviting and easy-to-navigate site that highlights our skills in web design, making a strong impression on visitors.
